PROFESSIONAL SUMMARY

Full-stack Software Engineer specializing in Java, Spring Boot, and Angular, with a proven track record of shipping scalable microservices architectures in production environments. Skilled at owning problems end-to-end — from API design and service security to responsive front-end delivery — and consistently translating technical work into measurable business outcomes.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, Python, HTML5, CSS3

Frameworks & Libraries: Spring Boot, Spring MVC, Spring Security, Spring Cloud (Eureka, Config Server, API Gateway), Angular, Hibernate

Architecture & Patterns: Microservices, RESTful APIs, Dependency Injection, AOP, MVC, JWT Authentication, RBAC

Databases: MySQL, DBMS

Tools & Platforms: Git, Maven, Postman, Fresh Works CRM

CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems

EXPERIENCE

Cognizant Technology Solutions

Programmer Analyst Trainee

Mumbai, India

July. 2025 – Present

- Owned the design and delivery of **5 production microservices** in Spring Boot, cutting deployment time by **30%** and enforcing Spring best practices (DI, AOP, Transaction Management) that drove a **15% reduction in code complexity**.
- Engineered **40+ RESTful APIs** using Spring Boot and Spring MVC, powering seamless integration between the Angular front-end and multiple third-party systems without a single breaking change.
- Shipped **3 full-stack features** end-to-end with Spring Boot and Angular while hardening all microservices via Spring Security and Spring Cloud (Eureka, Config Server), lifting UX scores by **25%**.

Tata Teleservices Limited

Software Engineering Intern

India

Dec. 2023 – Feb. 2024

- Designed and shipped RESTful APIs and e-bonding automation that eliminated B2B processing overhead across enterprise systems, slashing manual error rates by **15%** and enabling real-time data exchange at scale.
- Overhauled Freshworks CRM workflows to align with business processes, delivering a **20% jump in operational efficiency** within the internship tenure.

PROJECTS

Customer Relationship Management Platform | *Spring Boot, Angular, Microservices, MySQL, Eureka*

- Architected and launched a full-stack CRM on Spring Boot and Angular with a microservices backbone (Eureka Server), achieving **40% faster data access** and driving system downtime down by **15%**.
- Crafted a responsive Angular UI with an integrated ticketing system that cut average resolution time by **50%** and pushed UX satisfaction scores up by **30%**.
- Delivered core CRM capabilities — customer support workflows, product data management, and marketing automation — driving a **25% increase in operational efficiency** across business teams.

E-Commerce Microservices Platform | *Java, Spring Boot, Spring Cloud, Angular, MySQL, JWT*

- Designed and shipped a production-grade e-commerce platform with **25+ RESTful APIs** using Spring MVC and Hibernate, fully integrated with Spring Cloud (Eureka, API Gateway, Config Server) for zero-downtime service orchestration.
- Locked down the entire microservices layer using Spring Security and JWT, enforcing RBAC and stateless session management to eliminate unauthorized access vectors.
- Built a responsive Angular front-end backed by MySQL for persistent storage, delivering a seamless user experience across product browsing, cart management, and order tracking flows.

EDUCATION

Vellore Institute of Technology

B.Tech, Computer Science – Specialization in Artificial Intelligence & Machine Learning

Chennai, India

Aug. 2021 – Jul. 2025

- CGPA: 8.55 / 10.0**
